

Changes to the 2012 International Energy Conservation Code

Focusing on the Commercial Provisions of the Code

Date: Monday
June 22, 2015
8:00 a.m - Noon

Location: Holiday Inn
Boise Airport
2970 W. Elder
Boise, Idaho

Instructor: David Freelove

2015 Continuing Education Course - AIA credits for 4 CEU hours

This training will give attendees an overview of the significant changes from the 2009 International Energy Conservation Code to the 2012 International Energy Conservation Code with a focus on the commercial provisions of the code.

- Identify significant changes from 2009 to 2012 IECC
- Focus on the air-barrier requirements of the 2012 IECC
- Achieve a better understanding of lighting control requirements
- Focus on the significant changes to the Mechanical provisions of the 2012 IECC

All architects and engineers should plan to attend.

INSTRUCTOR: David Freelove

David Freelove is the Energy Code Circuit Rider responsible for supporting IECC code adoption, implementation and enforcement for the state of Idaho. The Energy Code Circuit Rider program, funded by NEEA, includes providing technical assistance for the building, design and enforcement industries on energy code related items in the state, as well as providing training both in the classroom and in the field. Dave has worked in the code enforcement field for over eight years, serving as the Building Official for the City of Middleton, ID and as a residential inspector, plan reviewer and mechanical inspector for Canyon County, ID.
